CAREER OBJECTIVE

Motivated B.Tech ECE undergraduate (2027) with strong hands-on experience in Java, Spring Boot, and MySQL. Built a Library Management System featuring role-based access control using Spring Security. Eager to contribute to Nokia's software engineering teams, working on scalable and secure backend systems for real-world applications.

TECHNICAL SKILLS

Languages	Java (Core + OOP), SQL
Framework	Spring Boot, Spring MVC, Spring Security, Spring Data JPA / Hibernate
Database	MySQL, JDBC
API & Tools	REST APIs, Postman (API testing), Maven
Security	Authentication, Role-Based Access Control (RBAC)
Dev Tools	IntelliJ IDEA, Git, GitHub
Concepts	OOP, MVC Architecture, Layered Architecture, CRUD Operations

PROJECT

Library Management System

Tech Stack: Java • Spring Boot • Spring Security • MySQL • Postman • Git/GitHub [View on GitHub](#)

- ☐ Designed and developed a Library Management System using Spring Boot with a clean layered architecture (Controller → Service → Repository).
- ☐ Implemented Role-Based Access Control (RBAC) using Spring Security with Admin and User roles to secure API endpoints.
- ☐ Designed normalized MySQL database schema for Books, Members, Issue/Return Records, and fine calculation logic.
- ☐ Built 15+ RESTful APIs for book management, user registration, issue/return workflow, and overdue tracking, tested using Postman.
- ☐ Implemented search and filter functionality for books by title, author, and category.
- ☐ Managed complete project lifecycle using Git and GitHub for version control and collaboration.

EDUCATION

B.Tech — Electronics & Communication Engineering (ECE)

Expected: June 2027

IES College of Technology, Bhopal | Affiliated to RGPV University

Current CGPA: 7.18 / 10.0

CERTIFICATIONS

- Java Programming — Infosys Springboard (Online Certification)

ACHIEVEMENTS & PROFILES

- Solved Data Structures & Algorithms problems on LeetCode focusing on Arrays, Strings, and OOP fundamentals.
- Maintained an active GitHub profile with documented backend project repository:

<https://github.com/kunal-pandey12/library-management-system>

- Built a complete Library Management System using Spring Boot, covering backend development, API design, and testing using Postman.
